## Interactive Evidence Sample Kit

PART# QCL/AUTO/INT-SAMPLES

### Crime-lite AUTO multimedia training resource

This fully interactive sample kit includes twenty carefully selected evidence samples designed to demonstrate the full forensic search and examination capabilities of the Crime-lite Auto.

Samples including simulated body fluids, accelerants, drug residues, and commonly used fingerprint developers, have been selected to improve your knowledge of advanced search and imaging techniques, utilising high-intensity narrowband illumination.

All samples have been individually validated and include a link to view/download unique validation data and images.

An integral video presentation screen, provides a short instructional video that demonstrates techniques that will enable you to get the most out of your Crime-lite AUTO.
