## ACCESSORIES

*Clip-on accessory for imaging evidence on mirrored and highly reflective surfaces.*

Crime-lite AUTO

## COAXIAL Light Box

PART# QCL/AUTO/ACC/10

A lightweight attachment for the Crime-lite AUTO, the Coaxial Light Box is ideal for imaging evidence (particularly fingermarks) on mirrored and highly reflective surfaces.

Providing diffuse light via a half-mirror to the same optical axis as the camera lens, the Coaxial Light Box provides uniform illumination across a surface without unevenness or reflection distorting the fingerprint detail.

### Ordering Information
